Help in some typical admin actions

➤ Description

With this Jira Cloud add-on your Jira Administrators will get super powers!

This is an App extension for your Jira Cloud to help in some typical admin actions, like **know the customfield id's** or to configure an **Announcement Banner** to your Jira Cloud Users!

No configuration is needed; only install it, that's all! Plug'n'play.

And new features to come!

1-minute short video summary:

➤ Install addon

Just follow the following GIF for the install process. Only few clicks and addon will be installed in cloud instance.

➤ General Configuration

No Configuration is needed, as shown in following GIF

➤ Create an Announcement Banner to be shown to your users

Go to “Apps” “Support Admin Tools” : “Announcement Banner” option

Push the button “Add template”, then add the content and put a “summary name” to your announcement.

Now just **"Save"** and **"Activate"** to be shown to your users!

(Remember to always push the button Check change or refresh page to see the changes!)

➤ Disable the Announcement Banner

Go to **"Apps"** **"Support Admin Tools"** : **"Announcement Banner"** option

Open the **active template** and then deactivate the option **"Banner is shown to users"** and click **"Save"**, the announcement banner will be disabled

➤ Feature: Custom fields

Go to “Apps” “Support Admin Tools” : “Custom fields” option
