Free

This add-on gives the possibility to add a color to issue status at Glance inside own Confluence Pages

➤ Description

With this Confluence Server add-on, your users will see two colors more than the usual and bored "BLUE", "YELLOW", "GREEN" in the STATUSES of all the "Jira Filters" or "Jira Issues" inserted in all Confluence pages. The two colors that this plugin allows are: "ORANGE": For status that have some of these words in the name, words: "Wait", "Waiting", "Hold", "On Hold", "Pause" or "Paused" "RED": For status that have some of these words in the name, words: "Cancel", "Cancelled", "Suspend", "Suspended", "Reject" or "Rejected", "Deny" or "Denied", "Do not use". Very easy to install, just install as always in your Confluence Server and that's all! No configuration is needed, just Plug'n'play.

➤ Install add-on

Follow the classic way to install using the **Find new apps**, as shown below

➤ General Configuration

No General Configuration is needed. Just use it 😊

Usage

Just put a Jira macro in a Confluence page where a JQL filter is specified. In this case, we have this one:

Insert Jira Issue/Filter

Search

Create New Issue

Recently Viewed

OTHER JIRA CONTENT

Jira Charts

Q

Search using any issue key, search URL, Jira link, JQL, plain text or filter

☒	Key	Summary
☒	TESDEV-1	test

Display options

Select Macro Hint: type "Cmd+Shift+J" in the editor to quickly access this dialog.

InsertCancel

If you remember, In Jira we have this situation

Find filters

status = Rejected

SearchBasic
